

GINGER LEE KRETSCHMER

FRONTEND WEB DEVELOPER

PROFILE

Hi! I'm Ginger, a socially-minded frontend web developer with a background in digital project management looking to creatively build and define the future of software.

SKILLS

React	ES6	CSS3/SASS
JavaScript	Angular 2	Jest
Webpack	P5.js	JIRA
Firebase	HTML5	Git

PROJECTS

Rails Developer Survey 2018 - Data Visualizations

React app leveraging Chartist.js to display over 2,000 Survey responses from the Rails developer community in a beautiful and meaningful way. Deployed to Amazon S3 and shared at RailsConf 2018.

🎵 Notebook - Art & Code

A digital canvas built with p5.js, Angular2, and JavaScript to play songs and allow users to create digital art to the beat.

WORK

Frontend Developer // Planet Argon, March 2018 - Present
Design, build and launch of the Rails Developer survey in React. PA site updates. Frontend work in React and Ruby.

Digital Project Manager // Say Media, 2016 - 2017

Managed over 30 website launches, feature builds, software upgrades and bug fixes on a custom CMS. Client and development team direction using JIRA and Zendesk.

QA Analyst // Say Media, 2015 - 2016

Tested code functionality and design across devices, browsers and operating systems.

Digital Project Manager // Cascade Web Development

Owned full project lifecycle to launch client websites. Worked closely with clients, development and design teams.

EDUCATION

Epicodus, 2017 - 2018

Frontend Web Development - React/Design Track

Middlebury College, 2003 - 2006

BA in Psychology & Spanish
